Granny's Growing Garden

Granny likes to grow fruits and vegetables in her garden. Her favorite vegetable to plant is the carrot. One day, Granny was picking some carrots for dinner when she saw a bunny hopping in the garden. The bunny looked at Granny and asked,

"Can I please have a carrot to give to my baby bunnies?"

Granny only had six carrots left in the garden. She was going to have a big dinner with Granddaddy and their two friends, Joe and Beth. Granny didn't know what to do.

"I have not seen you around my garden, and I don't even know you", Granny said.

"Well," said the bunny, "I did not want to bother you, but your carrots look so tasty and fresh!"

"You are a very nice bunny," said Granny, "So how about I give you two carrots for you and your family to eat. I will make sure to plant a few extra carrots for next season."

"Wow, Granny! Thank you so much. I will see you next season" The bunny exclaimed.
